

Erasmus+ Mathematics & languages first transnational meeting

Thursday and Friday 5th and 6th of October, two of the teachers of our workshop, Christelle Quéru and Marie Diumenge, participated to the first transnational meeting in Bordeaux along with 18 others teachers from all the schools involved in the Erasmus project Maths&languages (schools from France, Poland, Italy, Belgium and Romania).

They worked hard on the project:

- Presentation of the team, the pupils recruited and the experience of the team regarding the MATH.en.JEANS or Maths&Languages workshops.
- Budget, administrative and financial monitoring, organisation of travels and meetings.
- Communication between the twinned partners, creation of the eTwinning Twinspaces, planning of the school year.
- Presentation of the tools developed to assess students' skills (transversal skills and mathematical competences) developed in the workshops.
- Common approach Maths&Languages, assessment tools, monitoring, evaluation and communication of the project.
- Presentation of Mathematics teaching in high schools in France.
- Visit of Bordeaux city.
